**AB 246**  (Santiago D)  Environmental quality: Jobs and Economic Improvement Through Environmental Leadership Act of 2011.

**Current Text:** Amended: 9/7/2017  [Text](#)

**Introduced:** 1/30/2017

**Last Amend:** 9/7/2017

**Status:** 9/7/2017-Joint Rules 61 and 62 suspended. (Ayes 27. Noes 12.) Re-referred to Com. on EQ. From committee chair, with author's amendments: Amend, and re-refer to committee. Read second time, amended, and re-referred to Com. on EQ.

**Location:** 9/7/2017-S. E.Q.

**Summary:** The Jobs and Economic Improvement Through Environmental Leadership Act of 2011 authorizes the Governor, until January 1, 2018, to certify projects that meet certain requirements, including the requirement that the project is certified as LEED silver or better by the United States Green Building Council, achieves a 10% greater standard for transportation efficiency than for comparable projects, and creates high-wage, highly skilled jobs that pay prevailing wages and living wages, for streamlining benefits provided by that act. The act provides that if a lead agency fails to approve a project certified by the Governor before January 1, 2019, the certification expires and is no longer valid. The act requires a lead agency to prepare the record of proceedings for the certified project concurrent with the preparation of the environmental documents. The act is repealed by its own terms on January 1, 2019. This bill would increase the certification of the project to LEED gold or better and increase the transportation efficiency to a 15% greater standard.

**AB 367**  (Obernolte R)  Water supply: building permits.

**Current Text:** Enrollment: 9/7/2017  [Text](#)

**Introduced:** 2/8/2017

**Status:** 9/7/2017-Enrolled and presented to the Governor at 3 p.m.

**Location:** 9/7/2017-A. ENROLLED

**Summary:** Current law prohibits a city, including a charter city, or a county from issuing a building permit for the construction of a new residential development where a source of the water supply is water transported by a water hauler, bottled water, a water-vending machine, or a retail water facility. Under current law, this prohibition on the issuance of a building permit does not apply to a residence that will be rebuilt because of a natural disaster. This bill would exempt from the prohibition on the issuance of a building permit a residence that will be rebuilt because of a fire and would provide that this is declaratory of existing law.

**Current Text:** Chaptered: 7/25/2017  [Text](#)

**Introduced:** 2/9/2017

**Last Amend:** 7/14/2017

**Status:** 7/25/2017-Approved by the Governor. Chaptered by Secretary of State - Chapter 135, Statutes of 2017.
The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas emissions and to update the scoping plan at least once every 5 years. The act authorizes the state board to adopt a regulation that establishes a system of market-based declining annual aggregate emissions limits for sources or categories of sources that emit greenhouse gases, applicable from January 1, 2012, to December 31, 2020, inclusive, as specified. This bill would require the state board, no later than January 1, 2018, to update the scoping plan, as specified.

Would create the Traffic Relief and Road Improvement Program to address traffic congestion and deferred maintenance on the state highway system and the local street and road system. The bill would provide for the deposit of various existing sources of revenue in the Traffic Relief and Road Improvement Account, which the bill would create in the State Transportation Fund, including revenues attributable to the sales and use tax on motor vehicles, revenues attributable to automobile and motor vehicle insurance policies from the insurer gross premiums tax, revenues from certain diesel fuel sales and use taxes, revenues from certain vehicle registration fees, and certain miscellaneous State Highway Account revenues.

Would require the State Air Resources Board to develop a uniform statewide system of annual reporting of emissions of criteria air pollutants and toxic air contaminants for use by certain categories of stationary sources. The bill would require those stationary sources to report their annual emissions of criteria air pollutants and toxic air contaminants, as specified.

Current law continuously appropriates specified portions of the annual proceeds in the Greenhouse Gas Reduction Fund to various programs, including 20% for the Affordable Housing and Sustainable Communities Program administered by the Strategic Growth Council. Current law provides for that program to fund projects that implement land use, housing, transportation, and agricultural land preservation practices to support infill and compact development and that support other related and coordinated public policy objectives. This bill would provide that a project receiving funding...
pursuant to the program shall be encouraged, among other things, to employ local entrepreneurs and workers utilizing appropriate workforce training programs. The bill would make related revisions to the policy objectives for the program.

**Planning and zoning: housing element.**

Current Text: Amended: 7/13/2017

Introduced: 2/16/2017

Last Amend: 7/13/2017

Status: 7/17/2017-Read second time. Ordered to third reading.

Summary: The Planning and Zoning Law requires, after the legislative body of the city or county has adopted all or part of a general plan, the planning agency to investigate and make recommendations to the legislative body of the city or county regarding reasonable and practical means to implement the general plan or element and to provide by April 1 of each year an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes specified information pertaining to the implementation of the general plan. Current law excludes a charter city from these requirements. This bill would require that this report additionally include the number of housing development applications received in the prior year, units included in all development applications in the prior year, units approved and disapproved in the prior year, and a listing of sites rezoned to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on specified sites.

**Summary:** The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. The act authorizes the state board to include use of market-based compliance mechanisms. Current law prohibits a state agency from linking a market-based compliance mechanism with any other state, province, or country unless the state agency notifies the Governor. Current law requires the Governor to issue specified findings within 45 days of receiving that notice from a state agency and to provide those findings to the Legislature. This bill would add to the findings required to be issued by the Governor and provided to the Legislature in those circumstances.

**Summary:** Would establish specified administrative and judicial review procedures for the administrative and judicial review of the EIR and approvals granted for a project related to the development of a specified sports and entertainment project in the City of Inglewood. Because the lead agency would be required to use these alternative procedures for administrative review of the EIR if the project applicant so chooses, this bill would impose a state-mandated local program. The bill would exempt from the requirements of CEQA a guideway project intended for development with the specified sports and entertainment project.
